 singhchinmayy@gmail.com

Skills

Programming Languages

c++, python, c, bash

Cloud

AWS EC2, AWS S3, Docker, Ubuntu Server, Reverse Proxy, AWS CLI, VPN & networking, Docker Compose, Tailscale, Cloud storage & synchronization, Cloud deployment, Bash automation

Tools

Git, GitHub, FFMPEG, GitHub Actions, Docker, Docker Compose, Caddy, Linux CLI

Web and Frontend

HTML, CSS, JavaScript

Certifications

Learn Linux Course

boot.dev
May 2025

Learn to Code in Python Course

boot.dev
May 2025

Fundamentals Of Computer Programming With C Language

Coursera
June 2024

Ordered Data Structures

University of Illinois Urbana-Champaign
November 2024

Docker

Coursera Project Network
April 2024

Education

Manipal Academy of Higher Education **2023-2027**
Computer Science Engineering Bachelor of Technology

Projects

Personal Homelab and Server Management **Jan 2025-Present**

- Managed multiple services on a **Raspberry Pi 5 homelab**, including **DNS filtering, reverse proxy, and Dockerized applications**.
- Ran **Docker environments across several servers**, forming a **Docker cluster**.
- Configured **Caddy, dynamic DNS, and Tailscale VPN** to gain hands-on experience in **networking and secure remote access**.
- Automated deployments via **Bash scripts and GitHub Actions** for **CI/CD and DevOps workflows**.
- Strengthened skills in **Linux administration, networking, cloud concepts, and service orchestration**.

ESSH **Apr 2025**

SSH Management Tool

<https://github.com/SinghChinmayy/essh>

- Developed a custom **SSH tool** to simplify **server access and management** across multiple machines.
- Enhanced efficiency in **homelab and multi-server operations**.
- Gained practical experience in **Python/Bash scripting, networking, and server administration**.

SSH, Server Management, Python, Bash, Networking

Static Website Generation and Deployment via GitHub Actions **November 2024**

- Built and deployed a **Jekyll static site** on **Cloudflare Pages** using **GitHub Actions**, automatically triggered on pushes to the GitHub repository.
- Technologies:** Jekyll, GitHub Actions, Cloudflare Pages, HTML/CSS
- Gained hands-on experience in **CI/CD pipelines, static site generation, and cloud-based deployment**.

CI/CD, Github Actions

Volunteering

DAV Public School **Summer 2025**
Volunteer Instructor Muzaffarpur, Bihar

Mentored students in Python and backend concepts through hands-on exercises, fostering coding skills and a passion for technology.
